“Komenik” Student Residence Hall is situated in the immediate vicinity of the University’s main building. Along with “Comeniana” Lecture Hall, University Library, and Monoprofile Medical Simulation Centre, they form the academic campus.

After its extensive renovation, the Residence Hall became a comfortable place of rest and accommodation for both students and lecturers. It is a mere 15-minute walk from the Town Square, while it takes only a couple more minutes to get from here to the railway station.

Student Dormitory 'Komenik'

To get accommodation in our hall of residence, students need to file an application. The priority of accommodation is given to full-time students.

Currently, “Komenik” can house up to 85 students in single- and twin-bed rooms with adjoining bathrooms. Each of its four floors comes with a fully equipped community kitchen, laundry room and drying room. Our student accommodation is open year-round, also during the summer study break. It is also a place adjusted to needs of disabled people.
